Description du produit

Safely Clean your iPad™, iPhone®, and iPod® Touchscreen with Monster™ CleanTouch™

Your iPad Loves to Get Dirty

You love your iPad and use it all the time. But the screen can become covered with dirt, dust, smudges, and grease. Yuck! Nothing takes the fun out of using your iPad like a dirty touchscreen. Now Monster has the answer to keep your iPad screen clean and bright for the clearest view.

CleanTouch to the Rescue!

Monster CleanTouch not only removes fingerprints, oils, and smudges, it leaves a microthin coating on your screen that resists fingerprint

buildup and makes the screen easier to clean. It even resists scratching and leaves a silky smooth finish that looks great, feels great, and lets you enjoy everything your iPad can do.

Stop Germs and Bacteria Where They Grow

Besides just being gross, smudges and fingerprints on your iPad screen can attract bacteria and germs that end up on your face and hands. But you can get rid of up to 99.9% of these nasty bugs by using the ultra-soft, microfiber Monster Clean Cloth™ with antimicrobial AEGIS™ technology. It clears away germs and microbes and leaves your screen clean and safe to use.

Ideal Size and Shape for Easy Packing

The 20 mL bottle features a super thin design that easily fits in a bag, purse, or pocket. It's also TSA compliant, so you can take it anywhere. A convenient carry pouch for the bottle and the 6" x 6" microfiber Clean Cloth is included.
